**E11EVEN Hotel & Residences + E11EVEN Residences Beyond**  
 Since its announcement of the first tower, E11EVEN Hotel & Residences Miami, the coveted destination captured global attention for its resort-style, entertainment-driven experience and offerings. From a Chopra Spa & Studio to an 8,000-square-foot casino-style sports lounge, five-star dining experiences and stunning architecture and design, the hot spot leaves nothing to the imagination, complete with 375 turnkey residences and hotel rooms. E11EVEN Residences Beyond launched in November 2021 after the record-breaking sellout of the first tower, offering 461 buyers-only condominiums and private amenities that span the likes of a helipad, sun lounge deck, fitness center and executive suites. The property is the first in the country to accept cryptocurrency as a form of payment. *Tower 1: 20 NE 11th St., Miami, Tower 2: 90 NE 11th St., Miami, [e11evenresidences.com](http://e11evenresidences.com)*

**Lofty Brickell**

Appealing to those on the move, seeking ease and flexibility, Lofty Brickell offers just that with a prime location in Brickell. The 43-story, Arquitectonica-designed residential building notes the unique philosophy of "Own, Live, Share," allowing residents to take advantage of short-term rental permissions with turnkey, fully furnished units. Services like Airbnb, Vrbo and personal rental services are licensed within the property, making it an extraordinarily unique and appealing option for those who do not want to commit to standard long-term leases. Additional features include a 400-linear-foot private marina, five-star restaurant, green building technology and more. *1101 S. Miami Ave., Miami, [loftybrickell.com](http://loftybrickell.com)*
